From: George Fox, Executive Director, Citizen Voice

Subject: Corporate donations under SB2922 CD1

Citizen Voice in collaboration with Voter-Owned Elections, Kokua Council, and other organizations has conducted research on donations to legislators from corporations and individuals having legislative interests.

While the focus of this research was on corporate and lobbyist donations made during the legislative session, I believe the research provides enough data to show substantial contributions from corporations to legislators.

We had planned to release this data with an analysis later this month, however, because of the debate on SB2922 and corporate contribution limits, we are releasing the raw data to you today for your consideration. The bottom line is that I believe that corporate donations to candidates should be limited and I urge you to defeat SB2922.

Thank you.
